

SUNSTONE

photography JEN RODRIGUEZ
designer & coordinator DANAЕ GRACE EVENTS

For a designer, every event and wedding they style is different because they really focus on what the property offers and how they can enhance the space. Inspired by the natural beauty of the Santa Ynez Valley, Danae Grace Events designed a botanical inspired shoot using in season, fresh elements that also were timeless, such as jasmine, olive branches, roses and lavender. The Villa at Sunstone Winery is the perfect backdrop for this style. Elan Event Rentals brought their gorgeous, imported pieces that really encompassed the style she was striving for. Kellye of Precious and Blooming outsourced the perfect vases and designed arrangements that were breathtaking. *As a creative director, I want each vendor to thrive and create and design something unique that will inspire others. From stunning florals and tableware to homemade ice cream sandwiches, and fresh cocktails it was the perfect day.*
